

Alpha Moisture Systems

SADPmini Hand Held Dew point Meter

Key Features

1. Various ranges from -110C to +20C dew point measurement.
2. Automatic calibration features.
3. "Desiccant Dry Down Assembly" for quick measurement!
4. Advance Data logging and PC download.
5. Serial and 4-20mA analogue output to your SCADA system.

Applications

1. Industrial process gases
2. Medical air and gases
3. Compressed air
4. Breathing air
5. Laboratory and research
6. Gas cylinder testing
7. Temporary continuous measurements
8. For intrinsically safe applications

***The Popular Global Choice in
Hand Held Dew point Meters.***
